Multiple RD Property Damage

The Question

- Couple cars shot up on the same block, same ShotSpotter event. How many RD's for each car/victim?

Comments

- Just like person shot scenario with multiple vehicles damaged during the event, there is only one RD# with multiple IUCR's. In this case the IUCR would 041R (most serious) and 1320.
- Why we do not use multiple RD's in this situation:
  - Assuming the vehicle was damaged during the same event. We are assuming the offender did not shoot one car, then a short time later come back and shoot up another car.
